TechnipFMC Awarded Substantial Flexible Pipe Contract for Agogo Integrated West Hub Development Project

NEWCASTLE & HOUSTON, February 28, 2023 — TechnipFMC (NYSE: FTI) has been awarded a substantial⁽¹⁾ contract by Azule Energy to supply flexible pipe for the Agogo Integrated West Hub Development Project, offshore Angola.

The contract is one of TechnipFMC's largest ever awards for flexible pipe in West Africa, and covers the engineering, procurement, and supply of jumpers, flowlines, risers, and all associated ancillary equipment. The flexible pipe will connect the new Agogo facility to the subsea production systems.

Azule Energy, a bp and Eni company, is the operator of Block 15/06 in Angola offshore, partnering with Sonangol P&P and SSI Fifteen Limited.

Jonathan Landes, President, Subsea at TechnipFMC, commented: "Our ability to meet Azule's flexible pipe needs, which allows for optimized riser and flowline system configuration, was instrumental in winning this award. This is another example of our unique capability to support fast-track greenfield developments, and we are excited to be supporting Azule Energy and its partners on this project."

(1) For TechnipFMC, a "substantial" contract is between \$250 million and \$500 million.
